• **Open and Accessible Data** - the City of Vancouver will freely share with citizens, businesses and other jurisdictions the greatest amount of data possible while respecting privacy and security concerns;

• **Open Standards** - the City of Vancouver will move as quickly as possible to adopt prevailing open standards for data, documents, maps, and other formats of media;

• **Open Source Software** - the City of Vancouver, when replacing existing software or considering new applications, will place open source software on an equal footing with commercial systems during procurement cycles;

Map data ©2012 MapLink, Tele Atlas - Terms of use
Background
We're now running Bugzilla version 4.0 (See bug 623215). Information about what was included in the upgrade can be found at https://wiki.mozilla.org/BMO/40Upgrade. If you have any issues with the site please create a blocker bug against bug 652325.

This form prompts you for the information required to file a good bug report (or enhancement request.) It may seem lengthy, but developers need all this information to understand and reproduce the bug, which is the first step towards fixing it. Please note that we do not accept bug reports by email - please do not email developers or mozilla.org staff with bug reports. Also, please do not file bugs on browser/email software older than two weeks - first, download a newer build of Firefox, Thunderbird, SeaMonkey, or Camino and check that the problem is still present.

Step 1 of 3 - has your bug already been reported?

Please don't skip this step - half of all bugs filed are reported already. Check the two lists of frequently-reported bugs:

Experiments
North Schedule 2010

**HOW TO USE:**

1. Determine if your home is on the north or south schedule. (Important: Make sure you are using the correct schedule.)
2. Find the coloured area where your home is located.
3. Follow the colour-coded calendar for your collection days.

**GARbage AND Recycling:** Collected weekly. Collection days skip ahead after each statutory holiday. All items must be set out for collection by 7 am. Crews work until 3 pm.

- Unlimited leaf collection month
- Statutory holiday (no collection)
- Yard trimmings collection day (every other week)

If this pilot project is successful other departments will be involved and a wider variety of issues will be made available for the public to report on. Click here to learn how it works.
Report an issue via SeeClickFix

The City of Grande Prairie is testing an online service request tool called SeeClickFix to help residents report non-emergency, quality-of-life issues. (To report an emergency, please call 911.)

Issues you can report using SeeClickFix in Grande Prairie are currently being limited to roads-related concerns. There are categories for potholes, dust control, parking meters, etc.

If this pilot project is successful other departments will be involved and a wider variety of issues will be made available for the public to report on. Click here to learn how it works.

WELCOME TO VANCOUVER COASTAL HEALTH'S INSPECTION REPORTS WEBSITE

The Inspection Reports Web site is designed to provide information to the public concerning the results of inspections of regulated facilities. Inspection Reports for three types of regulated facilities (food service establishments, personal service establishments and residential care facilities) are currently available on this web site.

Visitors to this site are cautioned against interpreting the status of a particular facility based on only one inspection. The web site will always contain information about the most recent routine and routine follow-up inspections, thereby providing the public with a brief history of compliance by the facility. Visitors are encouraged to browse the history of the facility and are encouraged to conduct other research (e.g. contact facility; review documentation and publications on the web; etc.) before arriving at any conclusions.

This web site has been designed to convey the same type of information to the general public as they would receive through a request under the Freedom of Information and Protection of Privacy Act of B.C. To ensure the protection of personal privacy the web site will not contain information related to complaint inspections. This web site is updated daily.

While every effort is made to keep the information up-to-date and ensure that it is accurate, Vancouver Coastal Health is not responsible for discrepancies between information posted here and the actual inspection reports provided to the facility and maintained in electronic format at VCH offices. Inspection reports for licensed residential care facilities are required to be posted in the care facilities.

If you discover a discrepancy, have any questions about a particular facility or if there is a facility not listed on our web site, please let us know by e-mailing us at environmental.health@vch.ca or by calling 604-675-3800 (for Vancouver), 604-233-3147 (for Richmond) or 604-983-6700 (for North Shore) between 8:30 a.m. and 5:00 p.m. weekdays. Please note that inspections for the Sunshine Coast, Squamish and Whistler are not currently on this site but can be found at www.healthspace.ca/vch

How To Search

Search by facility name

1. Select the Report Type from the drop down list above.
2. In the search box above, type in the full or partial name of the facility which you are searching for.
3. Click on the “Search” button.
4. The search will bring up in the main window all the results from the database which match your criteria.

Search by Facility and Area

1. Select the Report Type from the drop down list above.
2. Choose how you would like the results sorted, either by name (Area then Facility name), or by date.
3. Click on “Search”.
4. The search will bring up in the main window all the results from the database which match your criteria.

Search Alphabetically

1. Select the Report Type from the drop down list above.
2. Click on a letter to bring up only those facilities that start with that letter.
3. To get the full listing of all facilities click on “Search”.
